

Côte d'Ivoire (Rep.)

Address format Deliveries are made to P.O. Boxes. However, home deliveries are being tested for a single building. Items are then delivered to a set of boxes on the ground floor.

For home and P.O. Box deliveries alike, the two-digit post office code must be included. For home deliveries, the delivery office code is preceded by a 1, to show that it is a home delivery. The code 104 therefore indicates a home delivery made by post office 04.
